

# Case Study: 'We were prepared to try as many times as our finances would allow'

Published 23/09/2016 | 02:30

Dil Wickremasinghe and her wife Ann Marie

"We never 'decided' to become parents, we just knew it was the moment we met", says Dil Wickremasinghe of her wife Ann Marie and founders of Insight Matters Counselling.

"We contacted Clane Fertility Clinic (now Institut Marques) and selected a suitable donor. We started with IUI, which sadly didn't work in September 2014 while I also practised acupuncture and diet. It was the joyous news we were pregnant!

"Looking back now, we are so glad we tried IUI first, as it got us through the process and I sincerely believe it prepared my body for the next round.

"It cost around €8,500 in total and we were prepared to try again."
